M/V Zeran came in our Large Dry Dock in the middle of August and left in the end of September. The vessel came for her Special Survey:

- Steel renewal (more than 90 tons, 42 of which were concentrated into Forepeak);
- 100 % treatment (blasting and painting);
- Overhauling of:
 - ^ Governors
 - ^ Electrical motors
 - ^ Electrical fans
 - ^ Overboard valves
 - ^ Intermediate valves
 - ^ Safety valves
 - ^ Hydraulic cylinders;
- Repair of winches;
- Pipes renewal;
- Renewal of propeller blade seals;
- Renewal of sealing rubber of the guillotine door and the stern door.

M/T CHEM ANTARES was accepted in our Small Graving Dock for:

- Special Survey;
- Hull treatment;
- Withdraw of telshafts;

The job was done for period of six days.

M/V BELMEKEN:
100% Hull
treatment and
Cargo Hold.
The job was done
for extremely short
period of
eight days.
